Foundations of Leadership

Building, rewarding and sustaining
passion and **commitment** in leadership

Booth College of Mission

24 & 25 September 2014

Leadership is not about quick fixes. Modern leadership is about building, rewarding and sustaining passion and commitment and motivating committed followers.

Foundations of Leadership addresses the fundamentals of leadership and works to build day-to-day leadership skills. It also gives rock-solid techniques to handle challenging situations. Emphasizing the real differences between leadership and management, this two-day programme introduces the skills required for building excellent relationships – a vital ingredient in organisational and mission success. This boosted ability to nurture relationships sees participants develop a far more collaborative approach, and sets in place a solid base for future leadership growth.

Course Content

The Foundations of Leadership programme focuses on:

- What effective leadership is
- The difference between leadership and management
- Making the transition from follower to leader
- Recognising different leadership styles and when each is appropriate
- Delegating for results
- Communicating clearly and assertively as a leader
- Giving feedback
- Building strong team relationships and managing team dynamics
- Leading in difficult situations

Who is it for?

- Team leaders, supervisors or managers – those new to their roles or looking for skills to develop others
- Emerging leaders wanting to build a firm foundation for their leadership
- People with leadership potential who want to prepare for a leadership role
