Objectives:

- Service Delivery – Examine and share the models already used successfully in the Pacific Problem Gambling sector and the models used successfully by other organisations – delivering services to Pacific communities
- Build and strengthen capacity of the Pacific Workforce – to provide solutions to working collaboratively together, maximising and sharing strengths of services, enhancing quality of service, improving referrals/facilitation and reducing isolation.

- Encourage and build relationships with other stakeholders
- Discuss future development of specific culturally appropriate resources for Pacific communities – including availability requirements
- Work with the Ministry of Health towards better understanding of research requirements for Pacific problem gambling service providers

Outcomes sought:

- Pacific Model/Best practice
- Improved regular communication between service providers/scheduled meetings
- Develop a strategy to share/work with other organisations
- Improved availability of effective resources for Pacific events
- Research projects - to update, educate, enhance and add value to the service delivered by Pacific problem gambling providers to their communities.
