Reducing Gambling Harm

Do I have a gambling problem?

- Sometimes I've felt depressed or anxious after a session of gambling
- Sometimes I've felt really guilty about the way I gamble
- When I think about it, gambling has sometimes caused me problems
- Sometimes I've found it better not to tell others, especially my family, about the amount of time or money I spend gambling
- I often find that when I stop gambling I've run out of money
- Often I get the urge to return to gambling to win back losses from a past session
- I have received criticism about my gambling in the past
- I have tried to win money to pay debts

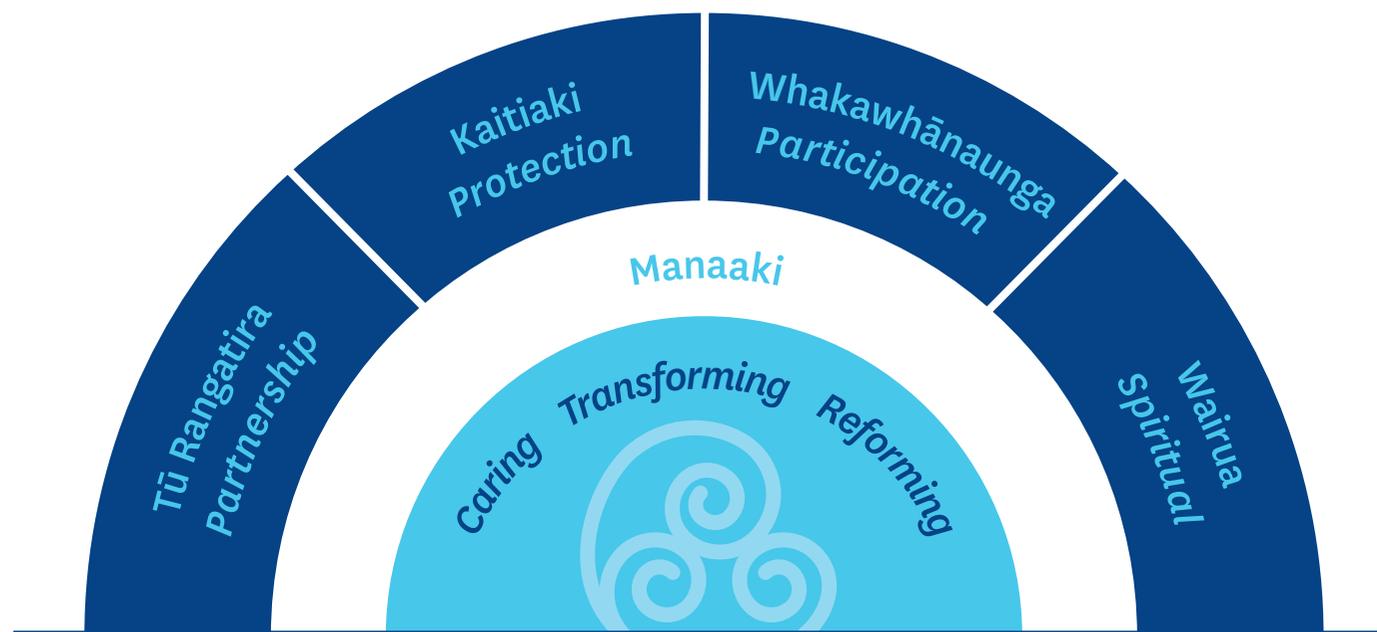

If you answered **yes to 4 or more** of these questions or have concerns about your gambling, contact us for a free and confidential assessment. (This self-test is not a diagnosis and doesn't replace a face-to-face interview.)
