

The Salvation Army Women's Ministries New Zealand, Fiji, Tonga AND Samoa Territory

The W and M are mirror-images of one another, symbolising the completeness that women and men find together as the image of God.

They are neither above or below each other - they are in unison, representing the harmony and mutual submission we are called to as believers.

They are both enclosed in the circle, representing the encompassing, never-ending nature of God.

Their edges flow out of the circle, showing the way our humanity interacts with God in unexpected, boundary-defying ways.

They are a representation of a heartbeat, as together we are the expression of God's life and love to all.

What feels resonant in this for you?
